About Proliance

Proliance Ltd is an ISO 9001 certified, technology enabled professional services firm offering management consulting, engineering, supply chain management, project management, and industry focused training solutions. We serve clients across the Energy and Natural Resources, Manufacturing, Technology and Communication, Healthcare, Food and Agriculture sectors, as well as Government and International Development Agencies.

Founded in 2017 by experienced management consultants and conformity assessment professionals, Proliance Ltd is built on the core values of TRUTH and INTEGRITY. Part of our commitment is to

deliver solutions that are precise, practical, and aligned with the evolving needs of modern organizations.

At Proliance Ltd, we leverage advanced methodologies and digital capabilities to help organizations optimize business processes, engineering systems, operational performance, and project outcomes. Our sector driven approach ensures that we fully understand the unique challenges our clients face, enabling us to provide market ready, innovation driven services that address requirements in quality, safety, compliance, technology adoption, environmental stewardship, and organizational development.

About Proliance cont.

A key part of our value offering is **specialized industry training** designed to equip professionals and organizations with the skills, competencies, and global best practice knowledge needed to thrive in today's competitive landscape. Our training programs span technical, managerial, and compliance areas, ensuring that individuals and teams are prepared for industry demands and global growth opportunities.

Proliance Ltd remains dedicated to delivering world class, technology driven professional services, empowering organizations, developing talent, and fostering sustainable success across industries.

Mission

To deliver high-quality business and technology solutions tailored to diverse sectors and needs.

Vision

To emerge as a leading professional service provider, distinguished by our commitment to standards and innovation, sustainable growth, global trade enhancement, and people development.
